1 Identification
[·] Product identifier
· Trade name: <u>Kocide® 2000</u>
Other means of identification:B11486799Coprantol UltramicronCuProDPX-GFJ52 35WGEkoram 2000K53WDGKDOSKocide® 35 DFKocide® 35 WGKocide® 53.8 DFKocide® 53.8 WDGKocide® 53.8 WDGKocide® Blue ExtraKocide® WDGKocide® WGOxford 2000
 Recommended use and restriction on use Recommended use: Fungicide Restrictions on use: Contact manufacturer
 Details of the supplier of the Safety Data Sheet Manufacturer/Supplier: Kocide LLC 9145 Guilford Road, Suite 175 Columbia, MD 21046 USA Tel: +1 301-604-5365
• Emergency telephone number: ChemTel Inc. (800)255-3924, +1 (813)248-0585
2 Hazard(s) identification
Classification of the substance or mixture Acute Tox. 4 H302 Harmful if swallowed. Acute Tox. 4 H332 Harmful if inhaled. Eye Irrit. 2A H319 Causes serious eye irritation. Additional information:

See Section 15 for specific EPA FIFRA label information.

To avoid risks to human health and the environment, comply with the instructions for use.

0 % of the mixture consists of component(s) of unknown toxicity.

Label elements

GHS label elements

The product is classified and labeled according to the Globally Harmonized System (GHS).

GHS07	
011007	
· Signal word: V	Varning
· Hazard statem	ents:
	Irmful if swallowed or if inhaled.
H319 Ca	uses serious eye irritation.
Precautionary	statements:
P261	Avoid breathing dust.
P264	Wash thoroughly after handling.
P280	Wear protective gloves/protective clothing/eye protection/face protection.
P270	Do not eat, drink or smoke when using this product.
P271	Use only outdoors or in a well-ventilated area.
P305+P351+P3	338 If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if
	present and easy to do. Continue rinsing.
P304+P340	IF INHALED: Remove person to fresh air and keep comfortable for breathing.
P337+P313	If eye irritation persists: Get medical advice/attention.
P301+P312	IF SWALLOWED: Call a POISON CENTER/doctor if you feel unwell.
P330	Rinse mouth.
P501	Dispose of contents/container in accordance with local/regional/national/international
	regulations.
Other hazard	s There are no other hazards not otherwise classified that have been identified.

3 Composition/information on ingredients

· Chemical characterization: Mixtures

· Components:				
20427-59-2 copper dihydroxide	53.8%			
Acute Tox. 3, H301; Acute Tox. 3, H331 Eye Dam. 1, H318				
Clay minerals	5-10%			
phosphate salt	5-10%			
Eye Dam. 1, H318 Acute Tox. 4, H302				
2-propenoic acid, homopolymer	1-5%			
Additional information:				

For the listed ingredient(s), the identity and/or exact percentage(s) are being withheld as a trade secret.

(Cont'd. on page 3)

4 First-aid measures Description of first aid measures · General information: Immediately remove any clothing soiled by the product. Symptoms of poisoning may even occur after several hours; therefore medical observation for at least 48 hours after the accident. Take affected persons out into the fresh air. · After inhalation: Supply fresh air. Seek immediate medical advice. Provide oxygen treatment if affected person has difficulty breathing. · After skin contact: Immediately wash with water and soap and rinse thoroughly. If skin irritation continues, consult a doctor. · After eye contact: Remove contact lenses if worn. Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor. · After swallowing: Rinse out mouth and then drink plenty of water. Do not induce vomiting; immediately call for medical help. Most important symptoms and effects, both acute and delayed: Coughing Irritant to eyes. Gastric or intestinal disorders when ingested. Nausea in case of ingestion. Danger: Danger of convulsion. Danger of impaired breathing. Causes serious eye irritation. Harmful if swallowed or if inhaled. Indication of any immediate medical attention and special treatment needed: If necessary oxygen respiration treatment. Treat symptomatically. 5 Fire-fighting measures

Extinguishing media
Suitable extinguishing agents: Foam
Carbon dioxide
Fire-extinguishing powder
Water spray
For safety reasons unsuitable extinguishing agents: Water stream.
Special hazards arising from the substance or mixture
Formation of toxic gases is possible during heating or in case of fire.

Kocide LLC

Safety Data Sheet acc. to OSHA HCS (29 CFR 1910.1200)

Printing date: 05/17/2016

Trade name: Kocide® 2000

Revision: 05/17/2016

(Cont'd. of page 3)

Advice for firefighters

· Protective equipment:

Wear self-contained respiratory protective device.

Wear fully protective suit.

Additional information:

Collect contaminated fire fighting water separately. It must not enter the sewage system.

6 Accidental release measures

Personal precautions, protective equipment and emergency procedures:

Use respiratory protective device against the effects of fumes/dust/aerosol.

Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation.

Isolate area and prevent access.

Environmental precautions:

Do not allow to enter sewers/ surface or ground water. Inform respective authorities in case of seepage into water course or sewage system.

Methods and material for containment and cleaning up:

Pick up mechanically. Dispose contaminated material as waste according to item 13. Send for recovery or disposal in suitable receptacles. Do not flush with water or aqueous cleansing agents

Reference to other sections:

See Section 7 for information on safe handling.

See Section 8 for information on personal protection equipment.

See Section 13 for disposal information.

7 Handling and storage

[·] Handling

· Precautions for safe handling:

Thorough dedusting.

Any deposit of dust which cannot be avoided must be regularly removed.

Use only in well ventilated areas.

Use personal protective equipment as required.

Wash contaminated clothing before reuse.

• Information about protection against explosions and fires: Dust can combine with air to form an explosive mixture. Protect from heat.

Conditions for safe storage, including any incompatibilities
Storage
Requirements to be met by storerooms and receptacles: Store only in the original receptacle.

Provide ventilation for receptacles.

- · Information about storage in one common storage facility:
- Protect from humidity and water.

(Cont'd. on page 5)

Safety Data Sheet

acc. to OSHA HCS (29 CFR 1910.1200)

Printing date: 05/17/2016

Trade name: Kocide® 2000

(Cont'd. of page 4)

Store away from foodstuffs. Do not store together with acids. • Further information about storage conditions: Keep containers tightly sealed. Storage Temperatures : <95 °F / <35 °C. • Specific end use(s): No relevant information available.

8 Exposure controls/personal protection

[•] Control parameters

· Components with limit values that require monitoring at the workplace:

phosphate salt

REL (USA) Long-term value: 5 mg/m³

TLV (USA) TLV withdrawn

EV (Canada) Long-term value: 5 mg/m³

• Exposure controls

· Engineering measures

Ensure adequate ventilation, especially in confined areas. Provide for appropriate exhaust ventilation and dust collection at machinery. Use sufficient ventilation to keep employee exposure below recommended limits.

· Personal protective equipment:

General protective and hygienic measures:

The usual precautionary measures for handling chemicals should be followed.

Keep away from foodstuffs, beverages and feed.

Immediately remove all soiled and contaminated clothing.

Wash hands before breaks and at the end of work.

Store protective clothing separately.

Avoid breathing dust.

- Engineering controls: No relevant information available.
- Breathing equipment:

Manufacturing and processing work: Half mask with a particle filter FFP2 (EN149) Mixer and loaders must wear: Half mask with a particle filter FFP2 (EN149) Spray application - outdoor: Tractor / sprayer with hood: No personal respiratory protective equipment normally required. Tractor / sprayer without hood: Low application (horticulture, field crops): Half mask with a particle filter FFP2 (EN149) Middle-height application: Half mask with a particle filter P2 (EN 143). Backpack / knapsack sprayer: Low application (horticulture, field crops): Half mask with a particle filter FFP2 (EN149) Middle-height application: Half mask with a particle filter P2 (EN 143). Backpack / knapsack sprayer: Low application (horticulture, field crops): Half mask with a particle filter FFP2 (EN149) Middle-height application: Half mask with a particle filter P2 (EN 143). Mechanical automatized spray application in closed tunnel: No personal respiratory protective

equipment normally required.

(Cont'd. on page 6)

Trade name: Kocide® 2000

Revision: 05/17/2016

(Cont'd. of page 5)

· Protection of hands:

Glove length: Gauntlets Protection index: Class 6 Wearing time: > 480 min The selected protective glov

Glove thickness: 0,4 - 0,7 mm

The selected protective gloves have to satisfy the specifications of EU Directive 89/686/EEC and the standard EN 374 derived from it. Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. Also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion, and the contact time. The suitability for a specific workplace should be discussed with the producers of the protective gloves. Before removing gloves clean them with soap and water. Gloves should be discarded and replaced if there is any indication of degradation or chemical breakthrough. Gauntlets shorter than 35 cm long shall be worn under the combination sleeve. Gloves must be inspected prior to use.

• For the permanent contact gloves made of the following materials are suitable: Nitrile rubber, NBR • Eye protection:

Safety glasses with side-shields conforming to OSHA or EN166

Follow relevant national guidelines concerning the use of protective eyewear. **Body protection:**

Manufacturing and processing work: Full protective clothing Type 5 (EN 13982-2)

Mixer and loaders must wear: Full protective clothing Type 5 + 6 (EN ISO 13982-2 / EN 13034) Rubber apron Nitrile rubber boots (EN 13832-3 / EN ISO 20345).

Spray application - outdoor: Tractor / sprayer with hood: No personal body protection normally required.

Tractor / sprayer without hood: Low application (horticulture, field crops): Full protective clothing Type 4 (EN 14605) Nitrile rubber boots (EN 13832-3 / EN ISO 20345).

Middle-height application: Full protective clothing Type 4 (EN 14605) Nitrile rubber boots (EN 13832-3 / EN ISO 20345).

Backpack / knapsack sprayer: Low application (horticulture, field crops): Full protective clothing Type 4 (EN 14605) Nitrile rubber boots (EN 13832-3 / EN ISO 20345).

Middle-height application: Full protective clothing Type 4 (EN 14605) Nitrile rubber boots (EN 13832-3 / EN ISO 20345).

Mechanical automatized spray application in closed tunnel: No personal body protection normally required.

When exceptional circumstances require an access to the treated area before the end of re-entry periods, wear full protective clothing Type 6 (EN 13034), nitrile rubber gloves class 3 (EN 374) and nitrile rubber boots (EN 13832-3 / EN ISO 20345).

To optimize the ergonomy it may be recommended to use cotton underwear when wearing some fabrics. Take advice from supplier. Garment materials that are resistant to both water vapour and air will maximise wearing comfort. Materials should be robust to maintain the integrity and barrier in use. The permeation resistance of the fabric must be verified independently of the « type » protection recommended, to ensure an appropriate performance level of the material adequate to the corresponding agent and type of exposure.

13 Disposal considerations

[·] Waste treatment methods

· Recommendation:

Must not be disposed of together with household garbage. Do not allow product to reach sewage system. In accordance with local and national regulations. It must undergo special treatment, e.g. at suitable disposal site, to comply with local regulations. Do not contaminate ponds, waterways or ditches with chemical or used container.

The user of this material has the responsibility to dispose of unused material, residues and containers in compliance with all relevant local, state and federal laws and regulations regarding treatment, storage and disposal for hazardous and nonhazardous wastes. Residual materials should be treated as hazardous.

[·] Uncleaned packagings

· Recommendation:

Do not re-use empty containers. Disposal must be made according to official regulations.

14 Transport information	
· UN-Number · DOT · ADR, IMDG, IATA	Classification as a MARINE POLLUTANT is based on MARPOL and DOT rules. Labeling as a MARINE POLLUTANT is not required for non-bulk single package shipments by motor vehicle, rail car or aircraft. Bulk packaging consists of a maximum capacity of greater than 450L (119 gallons) for a liquid and a maximum net mass greater than 400kg (882 pounds) for a solid. UN3077

• Chemicals known to cause cancer:

WARNING! This product contains a chemical or chemicals known to the State of California to cause cancer, birth defects or other reproductive harm.

Chemicals known to cause reproductive toxicity for females:

WARNING! This product contains a chemical or chemicals known to the State of California to cause cancer, birth defects or other reproductive harm.

Chemicals known to cause reproductive toxicity for males:

WARNING! This product contains a chemical or chemicals known to the State of California to cause cancer, birth defects or other reproductive harm.

Chemicals known to cause developmental toxicity:

WARNING! This product contains a chemical or chemicals known to the State of California to cause cancer, birth defects or other reproductive harm.

· Carcinogenic categories

· EPA (Environmental Protection Agency):

None of the ingredients are listed.

· Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA)

EPA Product Registration #: 352-656.

This chemical is a pesticide product registered by the Environmental Protection Agency and is subject to certain labeling requirements under federal pesticide law. These requirements differ from the classification criteria and hazard information required for safety data sheets, and for workplace labels of non-pesticide chemicals. Following is the hazard information as required on the pesticide label: WARNING - AVISO

Causes substantial but temporary eye injury. Harmful if swallowed, absorbed through the skin or inhaled. Do not get in eyes, skin, or on clothing. Avoid breathing dust.

FIRST AID

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-441-3637 for emergency medical treatment information.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate use of gastric lavage. See Label for Additional Precautions and Directions for use.

USER SAFETY RECOMMENDATIONS

USERS SHOULD: Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.

Printing date: 05/17/2016

Trade name: Kocide® 2000

Revision: 05/17/2016

(Cont'd. of page 12)

Remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. Remove PPE immediately after handling this product. As soon as possible, wash thoroughly and change into clean clothing. Wash the outside of gloves before removing.

IARC (International Agency for Research on Cancer):

None of the ingredients are listed.

NIOSH-Ca (National Institute for Occupational Safety and Health):

None of the ingredients are listed.

16 Other information

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guide for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The above information relates only to the specific material(s) designated herein and may not be valid for such material(s) used in combination with any other materials or in any process or if the material is altered or processed, unless specified in the text.
