SAFETY DATA SHEET CORAGEN 20 SC

Revision: Sections containing a revision or new information are marked with a .

♦ SECTION 1: IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

1.1.	Product identifier	CORAGEN 20 SC
1.2.	Relevant identified uses of the substance or mixture and uses advised against	Can be used as insecticide only.
1.3.	Details of the supplier of the safety data sheet	CHEMINOVA A/S , a subsidiary of FMC Corporation Thyborønvej 78 DK-7673 Harboøre Denmark <u>SDS.Ronland@fmc.com</u>
1.4.	Emergency telephone number <u>Medical emergencies:</u> Austria: +43 1 406 43 43 Belgium: +32 70 245 245 Bulgaria: +359 2 9154 409 Cyprus: 1401 Czech Republic: +420 224 919 293 +420 224 915 402 Denmark: +45 82 12 12 12 France: +33 (0) 1 45 42 59 59 Finland: +358 9 471 977 Greece: 30 210 77 93 777 Hungary: +36 80 20 11 99 Ireland (Republic): +352 1 809 2166 Italy: +39 02 6610 1029 Lithuania: +370 523 62052 +370 687 53378 Luxembourg: +352 8002 5500 Netherlands: +31 30 274 88 88	Norway: +47 22 591300 Poland: +48 22 619 66 54 +48 22 619 08 97 Portugal: 808 250 143 (in Portugal only) +351 21 330 3284 Romania: +40 21318 3606 Slovakia: +421 2 54 77 4 166 Slovenia: +386 41 650 500 South Africa: +27 83 123 3911 (Bateleur Emergency Response Co.) Spain: +34 91 562 04 20 Sweden: +46 08-331231 112 Switzerland: 145 United Kingdom: 0870 600 6266 (in the UK only) U.S.A. & Canada: +1 800 / 331-3148 (ProPharma) All other countries: +1 651 / 632-6793 (ProPharma - Collect)

For fire, leak, spill or other accident emergencies:

U.S.A.: +1 800 / 424 9300 (CHEMTREC) All other countries: +1 703 / 527 3887 (CHEMTREC - Collect)

		October 2017

♣ SECTION 2: HAZARDS IDENTIFICATION

2.1. Classification of the substance or Hazards to the aqua mixture		Hazards to the aquatic environment, acute: Category 1 (H400) chronic: Category 1 (H410)
	WHO classification	Class U (unlikely to present acute hazard in normal use).
	Health hazards	Serious hazards to health are not expected. However, the product should always be treated with the usual care of handling chemicals.
	Environmental hazards	The product is very toxic to aquatic organisms.

2.2. Label elements

According to EU Reg. 1272/2008 as amended

Product identifier Coragen 20 SC

Hazard pictogram (GHS09)

	Signal word	Warning
	Hazard statement	
	H410	Very toxic to aquatic life with long lasting effects.
	Supplementary hazard statement	
	EUH401	To avoid risks to human health and the environment, comply with the instructions of use.
	Precautionary statements	
	P273	Avoid release to the environment.
	P391	Collect spillage.
	P501	Dispose of contents/container as hazardous waste.
2.3.	Other hazards	None of the ingredients in the products meets the criteria for being PBT or vPvB.

***** SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

3.1.	Substances	The product is a mixture, not a substance.
3.2.	Mixtures	See section 16 for full text of hazard statements.
	<u>Active ingredient</u> Chlorantraniliprole CAS name	Content: 18% by weight 3-Bromo-N-[4-chloro-2-methyl-6-[(methylamino)carbonyl]phenyl]-1- (3-chloro-2-pyridinyl)-1H-pyrazole-5-carboxamide
	CAS no	500008-45-7

Material group	-	Page 3 of 12
Product name	CORAGEN 20 SC	
		October 2017

IUPAC name	3-Bromo-4'-chloro-1-(3-chloro-2-pyridyl)-2'-methyl-6'-(methyl- carbamoyl)pyrazole-5-carboxanilide
ISO name/EU name	Chlorantraniliprole
EC no. (EINECS no.)	None
EU index no	None
Molecular weight	483.1
Classification of the ingredient	Hazards to the aquatic environment, acute: Category 1 (H400)
	chronic: Category 1 (H410)

SECTION 4: FIRST AID MEASURES

4.1.	Description of first aid measures Inhalation	If experiencing any discomfort, immediately remove from exposure. Light cases: Keep person under surveillance. Get medical attention immediately if symptoms develop. Serious cases: Get medical attention immediately or call for an ambulance.
	Skin contact	Immediately remove contaminated clothing and footwear. Flush skin with water. Wash with water and soap. See physician if any symptom develops.
	Eye contact	Immediately rinse eyes with much water or eyewash solution, occasionally opening eyelids, until no evidence of chemical remains. Remove contact lenses after a few minutes and rinse again. Get medical attention if irritation persists.
	Ingestion	Inducing vomiting is not recommended. Rinse mouth and drink water or milk. If vomiting does occur, rinse mouth and drink fluids again. Consult a physician immediately.
4.2.	Most important symptoms and effects, both acute and delayed	None known.
4.3.	Indication of any immediate medical attention and special treatment needed	Immediate medical attention is required in case of ingestion.
	Notes to physician	A specific antidote against this substance is not known. Gastric lavage and/or administration of activated charcoal can be considered.

SECTION 5: FIRE-FIGHTING MEASURES

5.1. Extinguishing media	Dry chemical or carbon dioxide for small fires, water spray or foam for large fires. Avoid heavy hose streams.
5.2. Special hazards arising from the substance or mixture	The essential breakdown products are volatile, toxic, irritant and inflammable compounds such as nitrogen oxides, hydrogen chloride, hydrogen bromide, carbon monoxide, carbon dioxide and various chlorinated and brominated organic compounds.

Material group	-	Page 4 of 12
Product name	CORAGEN 20 SC	
		October 2017

♣ SECTION 6: ACCIDENTAL RELEASE MEASURES

6.1.	Personal precautions, protective equipment and emergency procedures	It is recommended to have a predetermined plan for the handling of spills. Empty, closable vessels for the collection of spills should be available.
		In case of large spill (involving 10 tonnes of the product or more): 1. use personal protection equipment; see section 8 2. call emergency telephone no.; see section 1 3. alert authorities.
		Observe all safety precautions when cleaning up spills. Use personal protection equipment. Depending on the magnitude of the spill this may mean wearing respirator, face mask or eye protection, chemical resistant clothing, gloves and boots.
		Stop the source of the spill immediately if safe to do so. Avoid and reduce formation of vapour or mist as much as possible.
6.2.	Environmental precautions	Contain the spill to prevent any further contamination of surface, soil or water. Wash waters must be prevented from entering surface water drains. Uncontrolled discharge into water courses must be alerted to the appropriate regulatory body.
6.3.	Methods and materials for containment and cleaning up	It is recommended to consider possibilities to prevent damaging effects of spills, such as bunding or capping. See GHS (Annex 4, Section 6).
		If appropriate, surface water drains should be covered. Minor spills on the floor or other impervious surface should be absorbed onto an inert absorbent such as universal binder, Fuller's earth, bentonite or other absorbent clay. Transfer to suitable containers. Clean area with strong industrial detergent and much water. Absorb wash liquid onto suitable absorbent and transfer contaminated absorbent to suitable containers. The used containers should be properly closed and labelled.
		Large spills which soak into the ground should be dug up and transferred to suitable containers.
		Spills in water should be contained as much as possible by isolation of the contaminated water. The contaminated water must be collected and removed for treatment or disposal.

Material group	-	Page 5 of 12
Product name	CORAGEN 20 SC	
		October 2017

6.4. **Reference to other sections** See subsection 8.2. for personal protection. See section 13 for disposal.

SECTION 7: HANDLING AND STORAGE		
7.1. Precautions for safe handling	In an industrial environment, it is recommended to avoid all personal contact with the product, if possible by using closed systems with remote system control. The material should be handled by mechanical means as much as possible. Adequate ventilation or local exhaust ventilation is required. The exhaust gases should be filtered or treated otherwise. For personal protection in this situation, see section 8.	
	For its use as a pesticide, first look for precautions and personal protection measures on the officially approved label on the packaging or for other official guidance or policy in force. If these are lacking, see section 8.	
	Remove contaminated clothing immediately. Wash thoroughly after handling. Before removing gloves, wash them with water and soap. After work, take off all work clothes and footwear. Take a shower, using water and soap. Wear only clean clothes when leaving job. Wash protective clothing and protective equipment with water and soap after each use.	
	Do not discharge to the environment. Do not contaminate water when disposing of equipment wash waters. Collect all waste material and remains from cleaning equipment, etc., and dispose of as hazardous waste. See section 13 for disposal.	
7.2. Conditions for safe storage,	The product is stable under normal conditions of warehouse storage.	
including any incompatibilities	Store in closed, labelled containers. The storage room should be constructed of incombustible material, closed, dry, ventilated and with impermeable floor, without access of unauthorised persons or children. The room should only be used for storage of chemicals. Food, drink, feed and seed should not be present. A hand wash station should be available.	
7.3. Specific end use(s)	The product is a registered pesticide which may only be used for the applications it is registered for, in accordance with a label approved by the regulatory authorities.	

***** SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

8.1. Control parameters

Personal exposure limits

To our knowledge not established for any of the ingredients in this product. However, personal exposure limits defined by local regulations may exist and must be observed.

		0.971 mg/l at pH 9
Partit	ion coefficient n-octanol/water	Chlorantraniliprole : $\log K_{ow} = 2.77$ at pH 4 and 20°C
		$\log K_{ow} = 2.86$ at pH 7 and 20°C
		$\log K_{ow} = 2.80$ at pH 9 and 20°C
	gnition temperature	Not autoflammable
	mposition temperature	Decomposition of chlorantraniliprole starts at 330°C.
Viscosity		400 - 800 mPa.s at 30 rpm
Explosive properties		Not explosive Not oxidising
Oxidising properties		Not oxidising
9.2. Other information		
Misci	bility	The product is dispersible in water.
• SECTIO	N 10: STABILITY AND REAC	TIVITV
- SECTIO		
10.1. Reac	tivity	To our knowledge, the product has no special reactivities.
10.2 Chen	nical stability	The product is stable during normal handling and storage at ambient
10.2. Chen		temperatures.
		emperatures.
10.3. Possi	bility of hazardous reactions	None known.
10.4. Cond	itions to avoid	Heating of the product will produce harmful and irritant vapours.
10.5. Incon	npatible materials	None known.
10.6. Hazardous decomposition products		See subsection 5.2.
♣ SECTIO	N 11: TOXICOLOGICAL INF	ORMATION
11.1. Infor	mation on toxicological effects	* = Based on available data, the classification criteria are not met.
Prod	wat	

<u>Product</u> Acute toxicity The product is not harmful by inhalation, in contact with skin or if swallowed. * However, it should always be treated with the usual care of handling chemicals. The acute toxicity is measured as:

Material group	-	Page 8 of 12
Product name	CORAGEN 20 SC	
		October 2017

Route(s) of entry	- ingestion - skin - inhalation	$LD_{50}, \text{ oral, rat:} > 5000 \text{ mg/kg} \text{ (method OECD 425)}$ $LD_{50}, \text{ dermal, rat:} > 5000 \text{ mg/kg} \text{ (method OECD 402)}$ $LC_{50}, \text{ inhalation, rat:} > 2 \text{ mg/l/4 h} \text{ (method OECD 403)}$
Skin corrosion/irrita	tion	Not irritating to skin (method OECD 404). *
Serious eye damage/	/irritation	Not irritating to eyes (method OECD 405). *
Respiratory or skin s	sensitisation	Not a skin sensitizer (method OECD 429). *
Germ cell mutagenio	city	The product contains no ingredients known to be mutagenic. *
Carcinogenicity		The product contains no ingredients known to be carcinogenic. *
Reproductive toxicit	у	The product contains no ingredients found to have adverse effects on reproduction. *
STOT – single expo	sure	To our knowledge, no specific effects have been observed after single exposure. $*$
STOT – repeated exposure		The following has been measured on the active ingredient chlorantraniliprole: Target organ: liver NOAEL: 1188 mg/kg bw/day in a 90-day oral rat study (method OECD 408). At this exposure, increased liver weight was found. *
Aspiration hazards		The product contains no ingredients known to present an aspiration pneumonia hazard. *
Symptoms and effect delayed		To our knowledge, adverse effects in humans have not been reported.
<u>Chlorantraniliprole</u> Toxicokinetics, metabolism and distribution		Chlorantraniliprole is rapidly absorbed after oral intake and widely distributed in the body. It is extensively metabolised. Excretion is rapid, within a few days. No indication of bioaccumulation is found.
Acute toxicity		The substance is not harmful by inhalation, in contact with skin or if swallowed. * However, it should always be treated with the usual care of handling chemicals. The acute toxicity is measured as:
Route(s) of entry	- ingestion	LD_{50} , oral, rat: > 5000 mg/kg (method OECD 425)
	- skin	LD_{50} , dermal, rat: > 5000 mg/kg (method OECD 402)
- inhalation		LC_{50} , inhalation, rat: > 5.1 mg/l/4 h (method OECD 403)
Skin corrosion/irrita	tion	Not irritating to skin (method OECD 404). *
Serious eye damage/irritation		Not irritating to eyes (method OECD 405). *

48-h LD₅₀, oral: > 541 μ g/bee

Respiratory or skin sensitisation ... Not a skin sensitizer (methods OECD 406 and 429). *

SECTION 12: ECOLOGICAL INFORMATION

12.1.	The ecotoxicity of the product is measu		The product is very toxic to aquatic invertebrates and may be harmful to fish and algae. It is not considered as harmful to birds, insects and soil macro- and microorganisms.	
			red as:	
			corhynchus mykiss)	96-h LC ₅₀ : > 9.9 mg/l
	- Invertebrates	Daphnids (Daphni	a magna)	48-h EC ₅₀ : 0.035 mg/l
	- Algae	Green algae (Pseud	lokirchneriella subcapitata)	72-h $E_r C_{50}$: > 20 mg/l

- Birds	Bobwhite quail (Colinus virginianus)	LD ₅₀ : > 2000 mg/kg
- Earthworms	Eisenia fetida	14-day LC ₅₀ : > 1000 mg/kg
- Insects	Bees	48-h LD ₅₀ , contact: > 541 μ g/bee

The following has been measured on the active ingredient chlorantraniliprole:

	- Invertebrates	Daphnids (Daphni	<i>a magna</i>) 21-day NOEC: 0.00447 mg/l
12.2.	. Persistence and degradability		Chlorantraniliprole is not readily biodegradable. Primary degradation half-lives vary with circumstances, but can be several years in aerobic soil. Accumulation in soil is possible if used in consecutive years.
12.3.	Bioaccumulative J	potential	See section 9 for n-octanol/water partition coefficients.
			Bioaccumulation of chlorantraniliprole is not expected. measured Bioconcentration Factor (BCF) is 15 for whole fish. It is rapidly excreted, within a few days.
12.4.	Mobility in soil		Chlorantraniliprole is not mobile in soil.
12.5.	Results of PBT an assessment		None of the ingredients meets the criteria for being PBT or vPvB.
12.6.	Other adverse effe	ects	Other relevant hazardous effects in the environment are not known.
♣ SE	CCTION 13: DISPO	SAL CONSIDERA	TIONS
13.1.	Waste treatment	methods	Remaining quantities of the material and empty but unclean packaging should be regarded as hazardous waste.

Disposal of product	Disposal of waste and packagings must always be in accordance with all applicable local regulations.

Material group	-	Page 10 of 12
Product name	CORAGEN 20 SC	
		October 2017

According to the Waste Framework Directive (2008/98/EC), possibilities for reuse or reprocessing should first be considered. If this is not feasible, the material can be disposed of by removal to a licensed chemical destruction plant or by controlled incineration with flue gas scrubbing.

Disposal of packaging Do not contaminate water, foodstuffs, feed or seed by storage or disposal. Do not discharge to sewer systems.

It is recommended to consider possible ways of disposal in the following order:

1. Reuse or recycling should first be considered. Reuse is prohibited except by the authorisation holder. If offered for recycling, containers must be emptied and triply rinsed (or equivalent). Do not discharge rinsing water to sewer systems.

2. Controlled incineration with flue gas scrubbing is possible for combustible packaging materials.

3. Delivery of the packaging to a licensed service for disposal of hazardous waste.

4. Disposal in a landfill or burning in open air should only occur as a last resort. For disposal in a landfill, containers should be emptied completely, rinsed and punctured to make them unusable for other purposes. If burned, stay out of smoke.

***** SECTION 14: TRANSPORT INFORMATION

ADR/RID/IMDG/IATA/ICAO classification

14.1.	UN number	3082
14.2.	UN proper shipping name	Environmentally hazardous substance, liquid, n.o.s. (chlorantraniliprole)
14.3.	Transport hazard class(es)	9
14.4.	Packing group	III
14.5.	Environmental hazards	Marine pollutant
14.6.	Special precautions for user	Avoid any unnecessary contact with the product. Misuse can result in damage to health. Do not discharge to the environment.
14.7.	Transport in bulk according to Annex II of MARPOL 73/78 and the IBC code	The product is not transported in bulk by ship.
